

Corporate TV

Indoor Communication

Regular information sharing with your employees is an important aspect of modern business, and one that all too often is neglected. With friendlyway's "Corporate TV" solution, you can share company information with your employees using a virtual TV channel. In combination with the friendlyway composer 7 software, Corporate TV lets you broadcast all your important company news. For added convenience, your news items can be updated automatically. friendlyway can also assist you with your content programming directly.

We would be more than happy to produce an individual quote for your requirements; please get in touch with us for further details.

Deployment areas: Corporate TV, Trade-Show TV
